

# EDUC8 TO DON8

Why request the

1 organ donor can save up to 8 lives and 1 tissue donor can save and enhance the lives of 50 or more.

? ORGAN, EYE AND TISSUE DONATION LESSON?

Educating students about the significance of saying “YES” to donation allows them to make an informed decision and share their wishes with their family and friends. Nevada Donor Network is proud to offer a guest speaker to teach this critical organ, eye and tissue donation information to your class. By requesting our *Educ8 to Don8* program, you will empower your students and help them understand the importance of joining the Nevada Donor Registry and encouraging others to do the same.

## MEETING HEALTH EDUCATION CONTENT STANDARDS

Visit our teacher resources page for details about how the *Educ8 to Don8* program helps students meet expectations as outlined in the Health Education Content Standards!

Lauren Taylor,  
Health Education Teacher  
Basic High School

“Nevada Donor Network’s program is a great opportunity for students to learn the truth behind donation. With so many misconceptions regarding the topic, it is important that students understand the ‘what’ and ‘why’ of donation! **Organ donation has saved the lives of six of my family members** and we will be forever grateful to the wonderful people involved in this endeavor.”

Dwane Martinson,  
Driver’s Ed and History Teacher  
Legacy High School

“This lesson provides students, teachers and parents with an incredible first-hand look at the impact of heroic organ, eye and tissue donors in saving lives. Nevada Donor Network’s program delivers a stimulating experience that guides students through **a life-long lesson of helping others and giving back.**”
